INTERIM REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

To the Board of Directors of Bank Of China Turkey A.Ş.

Introduction

We have reviewed the unconsolidated balance sheet of Bank Of China Turkey A.Ş. ("the Bank") at 31 March 2019 and the related unconsolidated profit/loss statement, unconsolidated statement of profit/loss and other comprehensive income, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows and summary of significant accounting policies and other explanatory notes to the unconsolidated financial statements for the three-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of unconsolidated interim financial statements in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority, (together referred as "BRSA Accounting and Reporting Legislation") and Turkish Accounting Standard 34 "Interim Financial Reporting" for those matters not regulated by BRSA Legislation. Our responsibility is to express a reviewed conclusion on these unconsolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial information do not give a true view of the financial position of Bank Of China Turkey A.Ş. at 31 March 2019 and of the results of its operations and its cash flows for the three-month period then ended in all material respects in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim annual report in section eight, are not consistent with the reviewed unconsolidated financial statements and disclosures in all material respects.

Additional paragraph for English translation:

As explained in detail in Note I of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 "Interim Financial Reporting" except for the matters regulated by BRSA Legislation, accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

SECTION THREE

ACCOUNTING POLICIES

I. BASIS OF PRESENTATION

a. Preparation of the financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on the Principles and Procedures on the Accounting Practice and Documentation of Banks

The Bank prepared the accompanying financial statements in accordance with the Banking Law No.5411 "Regulation on Principles Related to Banks' Accounting Applications and Maintaining the Documents", dated November 1, 2006 which is published in the Official Gazette No: 26333, which refers to "Turkish Accounting Standards" ("TAS"), put into effect by Public Oversight Accounting and Auditing Standards Authority ("KGK"), and "Turkish Financial Reporting Standards" ("TFRS") issued by the "Turkish Accounting Standards Board" ("TASB") and additional explanations and notes related to them and other decrees, notes and explanations related to accounting and financial reporting principles (all "Turkish Accounting Standards" or "TAS") published by the Banking Regulation and Supervision Agency ("BRSA").

The format and detail of the publicly announced selected financial statements and notes to these statements have been prepared in accordance with the "Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements" and amendments to this Communiqué. The Bank maintains its books of account in Turkish Lira in accordance with the Banking Law, Turkish commercial Code and Turkish Tax Legislation.

The financial statements have been prepared in TL, based on the historical cost basis except for the financial assets, liabilities and derivatives which are expressed with their fair values.

On May 2, 2016, the Bank obtained permission from BRSA to establish as a deposit bank. The Bank obtained its permission to operate on 7 December 2017 and started its banking activities on 9 May 2018.

Exception request for the transition to the corresponding provision calculations of "TFRS 9 Financial Instruments" standard, effective as of January 1, 2018, has been approved by BRSA with the letter numbered 32521522-101.02.02 [68] -E.4652 and dated in 3 April 2018. In this respect, the Bank allocates general and special provisions within the scope of 10th, 11th, 13th and 15th articles of "Regulation on Procedures and Principles for the Classification of Loans and Provisions to be Reserved for Such Loans".

As the Bank's banking activities commenced on May 9,2018, the unconsolidated statement of profit or loss and other current period profit or loss and unconsolidated financial statements as of March 31,2018 have not been presented.

Additional paragraph for convenience translation into English of financial statements originally issued in Turkish

The differences between accounting principles, as described in these preceding paragraphs and accounting principles generally accepted in countries in which unconsolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in these unconsolidated financial statements. Accordingly, these unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

b. Accounting policies and valuation principles applied in preparation of financial statements

The accounting policies and valuation principles used in the preparation of the financial statements are selected and applied in accordance with the requirements set out in regulations, communiqués, statements and guidance published by the BRSA and if there is no special regulation by the BRSA, in accordance with the principles within TAS / TFRS. The accounting policies and valuation principles applied in the preparation of the accompanying financial statements are explained in Notes II and XXII below.

**Notes to unconsolidated financial statements
as at 31 March 2019**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

I. BASIS OF PRESENTATION (continued)

b. Accounting policies and valuation principles applied in preparation of financial statements (continued)

In preparation of selected financial statements in accordance with TAS, the Bank's management is required to make assumptions and estimates about the assets and liabilities on the balance sheet and the contingent issues as of the balance sheet date. Such assumptions and estimates are regularly reviewed, necessary corrections are made and details of the effects of these corrections are reflected in the income statement as explained in the related footnotes.

c. Classification changes in financial statements

None.

II. EXPLANATIONS ON THE USAGE STRATEGY OF FINANCIAL INSTRUMENTS AND ON FOREIGN CURRENCY TRANSACTIONS

The Bank operates in the fields of Corporate Banking and Treasury banking in Turkey. The Bank provides cash, non-cash loans, project financing and corporate finance services to its corporate customers under the umbrella of corporate banking.

The Bank's most important funding source is its capital. Most of the Bank's assets consist of placements made to banks. While capital is evaluated in high quality financial assets, an asset-liability management strategy is followed to keep interest, liquidity and exchange rate risks within certain limits. Foreign currency, interest and liquidity risks carried in the balance sheet and off-balance sheet assets and liabilities are managed within the framework of various risk limits and legal limits adopted by the Bank. The position of the Bank as a result of its foreign currency operations is kept at a minimum level and the foreign exchange rate risk is monitored within the framework of the Banking Law.

Explanation on foreign currency transactions

Foreign exchange gains and losses arising from the foreign currency transactions are converted into Turkish Lira by using the exchange rates at the date of the transaction and recognized in accounting records. At the end of the periods, foreign currency assets and liabilities are converted into Turkish Lira by using the spot foreign currency exchange rates of the Bank at the end of the period and the related currency conversion differences are recognized as foreign exchange gains and losses.

III. EXPLANATIONS ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS

The Bank's derivative instruments are classified as "Derivative Financial Assets Measured at Fair Value through Profit and Loss" or "Derivative Financial Assets Measured at Fair Value through Other Comprehensive Income" in accordance with "TFRS 9".

In accordance with TFRS 9, forward foreign exchange contracts, swaps, options and futures transactions are classified as "Derivative Financial Assets Measured at Fair Value through Profit and Loss". Derivative transactions are recorded at their fair value at the date of the contract. In addition, liabilities and receivables arising from derivative transactions are recorded in off-balance sheet accounts at contractual amounts.

As of December 31, the Bank has derivative financial liabilities is TL 24,554 which is classified as "Derivative Financial Liabilities Measured at Fair Value through Profit and Loss"(December 31, 2018: TL 4,516 Derivative Financial Asset).

**Notes to unconsolidated financial statements
as at 31 March 2019**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

IV. INFORMATION ON INTEREST INCOME AND EXPENSES

Interest income and expenses are recognized as they are accrued using internal rate of return method.

V. EXPLANATIONS ON FEE AND COMMISSION INCOME AND EXPENSES

According to the nature of fees and commissions; commission income / expenses collected for any future transaction are recognized on an accrual basis and other fee and commission income / expenses are recognized in accordance with TFRS 15 in the period in which they are incurred.

VI. EXPLANATIONS ON FINANCIAL ASSETS

Within the framework of the business plan, the Bank classifies and accounts for its financial assets as "Financial assets at fair value through profit or loss", "Financial assets at fair value through profit or loss" or "Financial assets at amortized cost". Such financial assets are recognized or deducted according to the "Financial Statement Acquisition and Disclosure of Financial Statements" in the third part of TFRS 9 standard on classification and measurement of financial instruments published in the Official Gazette dated 19 January 2017 and numbered 29953. Financial assets are measured at fair value on initial recognition in the financial statements. In the first measurement of financial assets other than "Financial assets at fair value through profit or loss", transaction costs are added to fair value or deducted from fair value.

The Bank recognizes a financial asset only when it is a party to the contractual provisions of the financial instrument. The first time that a financial asset is included in the financial statements, the characteristics of the business model and the contractual cash flows of the financial asset are taken into account by the Bank Management. When the business model determined by the bank management is changed, all financial assets affected by this change are reclassified and the reclassification is applied in the future. In such cases, no adjustments are made to the earnings, losses or interests previously recognized in the financial statements.

The Bank has no financial assets at fair value through other comprehensive income and financial assets at amortized cost other than loans and receivables as of March 31, 2019.

Loans and Receivables:

Loans are financial assets that have fixed or determinable payments and are not quoted on an active market. Such loans are initially recognized at cost with fair value reflecting transaction costs and are measured at amortized cost using the "effective interest rate (internal rate of return) method".

VII. INFORMATION ON IMPAIRMENT OF FINANCIAL ASSETS

Within the scope of the authorization granted to the Bank from BRSA numbered 32521522-101.02.02[86]-E.4652 and dated 3 April 2018, as of December 31, 2018, the Bank has not applied the provisions regarding the impairment of TFRS 9; as of 1 January 2018, the Bank calculated and accounted allowances for impairment of financial assets in accordance with the "Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside" published in the Official Gazette No. 29750 dated 22 December 2016 and effective as of 1 January 2018, "General and specific provisions to be allocated to banks that do not apply TFRS 9".

A financial asset or a group of financial assets can be impaired and impairment loss will occur only if there is objective evidence that one or more events ("loss/profit events") have occurred after the initial recording of subject asset and that subject loss event/s have an impairment effect on future, approximate cash flows which can accurately be guessed.

VIII. EXPLANATIONS ON OFFSETTING FINANCIAL INSTRUMENTS

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

**Notes to unconsolidated financial statements
as at 31 March 2019**

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

IX. INFORMATION ON SALES AND REPURCHASE AGREEMENTS AND LENDING OF SECURITIES

Funds provided by the Bank for securities sold under agreements for repurchase agreements ("Repo") are followed in the legal records in the "Funds Provided under Repurchase Agreements" and "Funds Provided under Repurchase Agreements-FC" Accounts.

Securities subject to repo (repurchase agreements) are classified as "Financial assets at fair value through profit or loss" or "Financial assets at fair value through other comprehensive income" according to their purposes to be held in the Bank's portfolio. Revenues from securities subject to repo are accounted for in interest income and expenses paid under repurchase agreements are accounted in interest expense accounts.

Funds lent against securities purchased under agreements to resell ("Reverse repos") are accounted under "Receivables from reverse repurchase agreements" on the balance sheet. Interest income accruals are calculated according to the "effective interest (internal rate of return) method" for the portion of the difference between repurchase agreements and purchase and resale prices. Difference between the purchase and resale prices determined by reverse repurchase agreements, the interest income accrual is calculated according to the "Effective interest rate method".

As of March 31, 2019, the Bank has no repo, reverse repo and foreclosed marketable securities (December 31, 2018: None).

X. EXPLANATIONS ON ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS AND THE RELATED LIABILITIES

Assets held for sale, consist of tangible assets due to non-performing loans are accounted for in accordance with "TFRS 5 related to Held for Sale Fixed Assets and Discontinued Operations Turkey Financial Reporting Standards" in the financial statements.

A discontinued operation is part of a bank's business classified as disposed or held-for-sale. It refers to a separate main business line or the geographical area of its activities. It is a part of the sale of a separate main line of business or geographical area of operations alone in a coordinated plan, or is a subsidiary acquired solely for resale.

As of March 31, 2019, the Bank has no assets held for sale and discontinued operations (December 31, 2018: None).

XI. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill represents the difference between the cost of goods sold and the fair value of the identifiable assets, liabilities and contingent liabilities of the acquiree's entity / operation, and represents the payment made by the acquirer to the entity for future benefit recognition. Not included in the financial statements of the business acquired in business combinations; however, assets that are separable from goodwill, intangible assets (such as credit card brand value and customer portfolio) and / or contingent liabilities are recognized in the financial statements at fair value.

Goodwill calculated in accordance with TFRS 3 - Business Combinations Standard is not subject to amortization but instead is tested for impairment in accordance with TAS 36 - Impairment of Assets, more frequently, annually or in cases where the conditional changes in circumstances indicate it may be impaired.

Intangible assets are amortized using the straight-line method over their estimated useful lives. The determination of the useful life of the asset is made by assessing the expected duration of use of the asset, the technical, technological or other type of obsolescence and the maintenance costs required to obtain the expected economic benefit from the asset.

As of March 31, 2019, there is no goodwill in the accompanying financial statements (December 31, 2018: None).

**Notes to unconsolidated financial statements
as at 31 March 2019***(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)***XII. EXPLANATIONS ON TANGIBLE ASSETS**

In accordance with the "Accounting Standard for Tangible Fixed Assets" ("TAS 16"), the cost of the tangible assets is determined by adding the initial amounts of the tangible assets and other direct expenses required to make the asset available. Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

For assets that are less than an active accounting period, depreciation is provided for the amount of the depreciation for the full year, as measured by the proportion of the asset over the life of the asset.

If the carrying amount of an item of property, plant and equipment is greater than its market value, an impairment loss is recognized for the excess amount and the amount is recognized in the financial statements. Gains or losses arising from the disposal of tangible fixed assets are transferred to profit and loss accounts of the related period.

Maintenance and repair costs incurred for tangible assets are recorded as expense.

Depreciation rates and estimated useful lives used for the tangible assets are as follows:

Tangible Assets	Estimated Useful Life (Year)	Amortization Rate (%)
Operating Leases	8-9	11.11-12.5
Furniture	5	20
Office equipment	4-10	10-25
Safe	50	2

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

XIII. EXPLANATIONS ON LEASING TRANSACTIONS

The Bank is a lessee in the offices used for the marketing of operational area services and operations, and there are no financial leasing transactions.

Explanations on TAS 16 Leases Standard

TAS 16 Leases Standard was published in the Official Gazette dated 16 April 2018 and numbered 29826, effective from 1 January 2019. This Standard specifies the principles for the leasing, presentation, presentation and disclosure of leases. The purpose of the standard is to provide tenants and lessees with appropriate information and to provide them with appropriate information. This information is the basis for evaluating the impact of the leases on the entity's financial position, financial performance and cash flows by users of financial statements. The Bank has started to apply the related standard on 1 January 2019.

Measurement, Presentation and Reflection of Financial Leasings into Financial Statement

The amount of the lease obligation is shown in the balance sheet as gross in proportion to the total of all cash payments under the contract and netted off with the interest expense arising from the contract. The usage right arising from the leasing transactions is capitalized at the date of the rental at the beginning of the lease by measuring the present value of the lease payments that have not been paid at that date. In this measurement, if the interest can be easily determined, the implied interest rate in the lease is used. If this ratio cannot be easily determined, the Bank's alternative borrowing interest rate announced by the Treasury Unit is used.

As a result of TAS 16 Standard implementation, as of March 31, 2019, the Bank has classified TL 21,332 operating lease into fixed assets and net operating lease liability is TL 23,185.

XIV. EXPLANATIONS ON PROVISIONS AND CONTINGENT LIABILITIES

Provision is made in the financial statements if there is an existing obligation resulting from past events, it is probable that the obligation will be met and the obligation can be reliably measured. Provisions are calculated based on the Bank Management's best estimates of the expenditure required to settle the obligation at the balance sheet date and are discounted to the present value where the effect is material.

For liabilities that arise as a result of past events, provision is made if the probability of occurrence is high and the amount can be reliably estimated at the time when those liabilities are incurred.

Contingent assets usually consist of unplanned or other unexpected events that give rise to the possibility of entry into the business of economic benefits. The presentation of contingent assets in the financial statements is not included in the financial statements, as it may result in the recognition of an income that can never be obtained. Contingent assets are disclosed in the footnotes of financial statements if it is probable that the economic benefits will flow to the enterprise. Contingent assets are assessed on an ongoing basis to ensure that their development is accurately reflected in the financial statements. If it becomes almost certain that the economic benefit will enter the Bank, the related asset and related income are reflected in the financial statements of the period in which the change occurs.

XV. EXPLANATION ON LIABILITIES RELATED TO EMPLOYEE RIGHTS

In accordance with the existing social legislation in Turkey, the Bank is required to make lump-sum termination indemnities including retirement and notice payments to each employee whose employment is terminated due to resignation or for reasons other than misconduct. In accordance with the revised TAS 19 employee benefits standard ("TAS 19"), such payments are recognized as defined benefit plans.

The retirement pay liability recognized in the balance sheet is calculated according to the present value of the amount of the liability expected to arise in the future due to retirement of all employees and reflected to the financial statements. Amendments to TAS 19 change the accounting for defined benefit plans and termination benefits. Changes require that all actuarial losses and gains be accounted for as other comprehensive income immediately in order to reflect the full value of the net retirement asset or liability in the balance sheet. Changes to TAS 19 should be applied retrospectively.

a. Defined benefit plans:

According to the laws and collective agreements existing in Turkey, retirement pay is paid in case of retirement or dismissal. The Bank recognizes the provision for the rights of its employees by estimating the present value of its future probable obligation in the event of retirement or dismissal.

There are no foundations, pension funds or similar associations of which the employees are members.

b. Defined contribution plans:

The Bank, on behalf of its employees, must pay contributions to the Social Security Institution (SSI) in the amount determined by law. Apart from the contribution paid by the Bank, there is no other obligation to pay to its employees or the SSI. These premiums are reflected to the personnel expenses in the period when they are accrued.

c. Short-term benefits to employees:

The liabilities arising from the vacation pay defined as "short-term benefits to employees" within the scope of TAS 19 are accrued and are not discounted at the periods when they are earned.

XVI. EXPLANATIONS ON TAXATION

a. Corporate tax:

As per the provisional article 91 of Law numbered 7061, which is added to Corporate Tax Law numbered 5520 corporate tax rate regarding 2018, 2019 and 2020 fiscal periods (accounting periods starting within the related period for companies which are assigned special accounting period) has been changed as 22%.

Since the applicable tax rate has been changed to 22% for the 2 years beginning from 31 March 2019, 22% tax rate is used in the deferred tax calculation of December 31, 2018 for the temporary differences expected to be realized/closed within 2 years (for the years 2020 and 2021). However, since the corporate tax rate after 2020 is 20%, 20% tax rate is used for the temporary differences expected to be realized/closed after 2020.

Corporate tax declarations are prepared between 1st and 25th days of 4th month of the related fiscal year and are paid till the end of the following month in one installment.

The corporations and income tax provisions calculated over the period profits are recorded in the "Current Tax Liability" account in the liabilities and in the "Current Tax Provision" account in the income statement as expense.

According to the Turkish Corporate Tax Law, financial losses in the declaration can be deducted from the corporate tax base of the period not exceeding 5 years. Declarations and related accounting entries can be examined within five years by tax office.

If there is no dividend distribution planned, no further tax charges are made. Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions no.2006/10731 of the Council of Ministers published in the Official Gazette no.26237 dated 23 July 2006, certain duty rates included in the articles no.15 and 30 of the new Corporate Tax Law no.5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions is 15%. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

Current tax effect in regards to transactions directly accounted for in equity is also reflected to equity.

b. Deferred tax:

In accordance with Turkish Accounting Standard on Income Taxes (TAS 12), the Bank accounts for deferred taxes based on the tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

The Bank's deferred tax assets and liabilities are offsetted in unconsolidated balance sheet. As of March 31, 2019, the Bank has TL 9,254 deferred tax assets (December 31, 2018: TL 1,393 deferred tax asset).

Deferred tax liabilities are recognized for all temporary differences whereas deferred tax assets calculated from deductible temporary differences are only recognized if it's highly probable that these will in the future create taxable profit. Deferred tax asset is not provided over general reserve for possible risk and general loan loss provisions according to the circular of BRSA numbered BRSA.DZM.2/13/1-a-3 and dated 8 December 2004.

Deferred tax effect in regards to transactions directly accounted for in equity is also reflected to equity and netted with related accounts.

In addition, deferred tax income is not subject to profit distribution and capital increase, if the income remains as a result of offsetting of the deferred tax asset and liabilities in accordance with the circular of the BRSA.

XVI. EXPLANATIONS ON TAXATION

c. Transfer pricing:

The article no.13 of the Corporate Tax Law describes the issue of transfer pricing under the title of “disguised profit distribution” by way of transfer pricing. “The General Communique on Disguised Profit Distribution by way of Transfer Pricing” published on November 18, 2007 explains the application related issues in detail.

According to this Communique, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm’s length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes. Disguised profit distribution amount will be recognized as share in net profit and stoppage tax will be calculated depending on whether the profit distributing institution is a real or corporate entity, full-fledged or foreign based taxpayer is subject to or exempt from tax.

As discussed under subject Communique’s 7.1 Annual Documentation section. taxpayers are required to fill out the “Transfer Pricing, Controlled Foreign Entities and Thin Capitalization” form for the purchase and sale of goods or services conducted with their related parties in a taxation period attach these forms to their corporate tax returns and submit to the tax offices.

I. EXPLANATIONS ON THE COMPONENTS OF SHAREHOLDERS' EQUITY (continued)

Explanations on reconciliation of shareholder's equity items to balance sheet:

The difference between "Equity" in equity table and "Shareholder's Equity" in the unconsolidated balance sheet mainly arises from the subordinated loan, bonds, general provisions and TFRS 9 transition effect. In the calculation of Total Capital, general provision up to 1.25% of credit risk is taken into consideration as Tier II Capital.

On the other hand, in the calculation of the "Equity", improvement costs for operating leases followed under tangible assets in the balance sheet, and related deferred tax liabilities, other items defined by the regulator are taken into consideration as amounts deducted from Total Capital.

Explanations on TFRS 9 Transition Process

The Bank has not yet started to reserve provision in accordance with TFRS 9. For this reason, the transition process stated Temporary Article 5 of the Regulation on Equities of Banks published in the Official Gazette dated December 5, 2013 and numbered 28756 are not yet applicable for our Bank and currently do not affect the capital adequacy ratios.

II. EXPLANATIONS ON CREDIT RISK

III. EXPLANATIONS ON CURRENCY RISK

The difference between the Bank's foreign currency denominated on-balance sheet and off-balance sheet assets and the foreign currency denominated on-balance sheet and off-balance sheet liabilities are defined as "FC Net General Position" and form the basis for exchange rate risk. An important dimension of the exchange rate risk is the risk (cross-currency risk) caused by the exchange of values of the foreign currencies against each other in the FX net general position.

Measurable and manageable risks are taken within legal limits. The Bank applies stress tests against the fluctuations in foreign currency within the year.

The Bank uses the "standard method" which is also used in legal reporting to measure the foreign exchange risk.

There is no significant foreign currency position in relation to the balance sheet size of the Bank and if any exchange rate risk occurs, it is taken counter position and exchange risk is not transferred.

The Bank's current foreign exchange buying rates announced on March 31, 2019 and December 31, 2018 as well as the last five day financial statement valuation rates are as follows:

IV. EXPLANATIONS ON INTEREST RATE RISK

Sensitivity analysis of the Bank's interest rate sensitive assets and liabilities and interest rate fluctuations are analyzed. The impact of interest rate volatility to the Bank will be analyzed by presenting the results to the Risk Committee and senior management regularly, sensitivity and scenario analysis in the coming periods. In this analysis, it is planned to calculate possible losses in fair value changes on interest rate sensitive products by interest rate shocks.

In the calculation of the Bank's exposure to interest rate risk, standard method is used.

VI. EXPLANATIONS ON LIQUIDITY RISK AND LIQUIDITY COVERAGE RATIO

The main objective of the liquidity management of the Bank is to keep the liquidity risk in the bank's payment obligations uninterrupted and also without risking the brand name or value during crisis periods. The Bank is obliged to comply with the internally determined liquidity limitations and is obliged to comply first with the minimum liquidity limitations determined by the legal legislation. According to the bank's policy, the liquidity limits should never exceed.

The Bank determines the liquidity risk appetite and strategy written under the Liquidity Risk Policy. In this context, the Bank controls maturity mismatch between assets and liabilities to be protected from liquidity risk and maintains liquid values in order to ensure the liquidity needs that can arise as a result of market fluctuations.

VI. EXPLANATIONS ON LIQUIDITY RISK AND LIQUIDITY COVERAGE RATIO (continued)

Liquidity coverage ratio:

The liquidity coverage ratio is calculated by dividing the high quality liquid assets to the Bank's net cash outflows in the 30 day period. Important balance sheet items that determine the ratio; required reserves held by the CBRT, corporate deposits and receivables from banks. These items have higher impact on the liquidity coverage ratio than the other items due to high share of liquid assets and net cash outflows, higher rate of consideration and variability

IX. EXPLANATIONS ON RISK MANAGEMENT

Notes and explanations in this section have been prepared in accordance with the Communiqué on Disclosures about Risk Management to Be Announced to Public by Banks that have been published in Official Gazette no. 29511 on 23 October 2015 and became effective as of 31 March 2016. According to Communiqué have to be presented on a quarterly basis. Due to usage of standard approach for the calculation of capital adequacy by the Bank, the following tables which are to be prepared according to Internal rating-based (IRB) approach have not been presented.

1. Explanations on Risk Management and Risk Weighted Assets

1.1. Bank's Risk Management Approach

Risk management covers the measurement and monitoring of risks, the control and reporting of risks within certain limits. These activities are carried out directly by the Risk Management Director under the Internal Systems Specialist. The Risk Management Director is independent from the executive units and fulfills its responsibilities to the Board of Directors through the Audit Committee and the Risk Committee.

Policies and procedures related to each of the quantifiable risks such as General Risk Policy and Credit Risk, Market Risk, Liquidity Risk, Operational Risk have been formed and identified for approval and measurement and control of the risks that the Bank may be exposed to due to its activities and approved by the Board of Directors.

Credit and operational risk constitute the main risk factors in terms of the types of risks the Bank is exposed to. The Bank aims not to carry positions that may cause currency risk.

For these risks, written limits, early warning thresholds and risk appetite indicators were determined by the General Risk Limit Policy and approved by the Board of Directors.

The Internal Capital Adequacy Assessment Procedure for the determination of the internal capital requirements and the adequacy of the Bank was approved by the Board of Directors.

Risk appetite and limits are reviewed regularly by the Internal Systems Officer, Risk Management Director, Risk Committee and the Bank's top management in a manner not to exceed the legal limits stated in the legislation and if deemed necessary, re-determined with the approval of the Board of Directors.

Risks are measured according to international and local regulations, Bank policies and procedures, using methods accepted in international practices appropriate to the Bank's structure, stress tests and scenario analyzes are conducted and reported regularly to senior management, Risk Committee and Board of Directors. Risk measurements are included in the Bank's decision-making processes.

The risk reports prepared for the purpose of assessing the risks of the Bank are regularly shared with the Board of Directors and senior management. Within the scope of the reports; information on compliance with the limits and risk appetite indicators defined on the basis of each type of risk, results related to capital adequacy and results of stress tests.

For the unrecoverable non-performing loans under legal follow-up, the loan quality, collateral quality, bona fide of the debtor and assessment of the emergency of legal follow-up are considered, before applying the best practice for unrecoverable non-performing loans under legal follow up. The bank prefers to liquidate the risk through negotiations with the debtors. If this cannot be possible, then the Bank starts the legal procedures for the liquidation of the risk. Ongoing legal follow-up procedures do not prevent negotiations with the debtors. An agreement is made with the debtor at all stage of the negotiations for the liquidation of the risk.

As of 31 March 2019, Bank of China Turkey A.Ş. has 31 employees and no branch. The Bank runs its operations at its head office.

E. Evaluations of the Chairman of the Board of Directors and the General Manager

Bank of China Limited ("Main Shareholder") started its representative operations in Turkey through Bank of China Limited Turkey Representative Office incorporated in 2011. Pursuant to the decision of the Banking Regulation and Supervision Agency ("BRSA") dated 2 May 2016 and numbered 6880. Bank of China Turkey Anonim Şirketi (the "Bank") was granted the permission to incorporate a deposit bank in Turkey. After the incorporation of the Bank by obtaining the incorporation permission from BRSA, the Bank was officially granted permission for operation following the publication of the decision of BRSA dated 1 December 2017 and numbered 7612 on the volume of the Official Gazette dated 7 December 2017 and numbered 30263. With 99.99% shares of the Main Shareholder, the Bank was incorporated with its registration before Istanbul Trade Registry Office on 10 January 2017 and the said matter was announced on the Turkish Trade Registry Gazette dated 17 January 2017 and numbered 9243 together with the Bank's Articles of Association.

Our Bank started its banking operations in 9 May 2018.

Total assets of the Bank as of 31 March 2019 are TL 1,426,242 (December 31, 2018: TL 1,291,801). While our equity amounts to TL 1,275,740 (December 31, 2018: TL 1,252,526) our capital adequacy ratio is at the level of 94% (December 31, 2018: 190,69%). As of 31 March 2019, the profit after tax of the Bank for the period is TL 26,745. The majority of such profit is the interest income derived from banks and loans.

With the support and guidance of our shareholders and Board of Directors, we believe that our Bank will achieve its future goals successfully by prioritizing the customer satisfaction.

II. ECONOMIC DEVELOPMENTS AND BANKING SECTOR OVERVIEW

Global growth concerns and monetary policy change of FED triggered inflows to Emerging Markets in the first quarter of 2019. Rate hike expectations from FED has been pushed out further. Turkey was also been impacted positively from this conjecture. Starting from Mid-March, because of the volatility in FX and Rate markets, asset prices in Turkey began to decrease.

In the first quarter of 2019, CBRT did not change its monetary policy stance. Starting from Mid-March, because of the Turkish Lira volatility, CBRT suspended 1 week repo auctions. Thus, weighted average cost of funding increased. In the same time, CBRT increased local banks' outstanding swap limits (US Dollar against Turkish Lira) gradually.

Turkey's economy has shown a strong growth performance in the first and second quarters of 2018, 7.3% and 5.2% respectively. Growth was mainly driven by the continuation of fiscal policies supported by domestic growth. With the help of economic rebalancing and slowdown in 3rd quarter and 3% economic contraction in the last quarter, 2018 year end GDP Growth occurred at 2.6%. Leading indicators and CBRT expectations survey showing that GDP Growth in 2019 will be slightly positive.

Balancing in Turkish Lira valuation and slowing down in economy, especially started with 3rd quarter of 2018, had positive impact on inflation. March 2019 CPI data occurred at 19.70% while yearly PPI data was at 29.6%. CBRT expectations survey showing that year end inflation will be slightly above the target in New Economy Program which was at 15.9%. 12-month rolling Current Account Deficit to GDP occurred 2.8% in January 2019.

The momentum in credit growth has decelerated which also led to rebalancing in the economy. Loan to Deposit ratio of the sector remained at 115% according to 2019 February BRSA data. Rebalancing also reflected to loan and deposit rates in which gradual easing has been seen.

Banks started syndication loan negotiations in the first quarter of 2019 and some banks finalized their borrowings successfully. TC Treasury has also finalized most of the external borrowing target in 2019 Program by issuing Eurobonds.
